Alertas

Nome	Nível de Risco	Number of Instances
Session Management Response Identified	Informativo	3

Alert Detail

Informativo	Session Management Response Identified
Descrição	The given response has been identified as containing a session management token. The 'Other Info' field contains a set of header tokens that can be used in the Header Based Session Management Method. If the request is in a context which has a Session Management Method set to "Auto-Detect" then this rule will change the session management to use the tokens identified.
